VELINOR
INTERNATIONAL

Energy Saving

Each raw material used, each productive process and each technology of the complex activity of the Velinor International sites are studied in order to reduce the environmental impact, by saving, recycling and filtering, with the will of transforming the waste in resources and optimize the use of energy. Velinor International is on the cutting-edge of adopting ecologically sustainable practices and this is demonstrated by the most accurate controls, repeated on a daily basis.

Low Gas Emissions into Atmosphere

Products commercialized by VELINOR INTERNATIONAL meet all the norms required by global manufactured goods, imposed by the global law concerning environmental issues. These legal requirements have encouraged us even further when setting our own international goals; leading to a minimization of any environmental impacts which can derive from our manufacturing process.

Water Recycling From The Production Process

We reuse the water from our production processes, apply cogeneration to make the most of the energy we use, reintegrate the waste products from each process into our ceramic tiles.

Recycling of Fired Material

VELINOR INTERNATIONAL is committed to the principles of ISO 14001-2015 environmental management standards. Green goods production in order to minimize the environmental impacts in their life cycle, reduce waste production, and promote environmental culture development is one of the most significant priorities in this industrial group.

ISO 9001	2015
ISO 14001	2015
ISO 45001	2018
ISO 10002	2018
ISO 10004	2018
ISO 10015	2019

CE Product Standard Certification
Confirmed by European Union
from CELEB in Italy.

OUR COMPANY STORY

Velinor International is a globally driven export and trade company built on more than two decades of dedication, innovation, and trusted partnerships. Combining advanced logistics, cutting-edge technology, and a strong commitment to excellence, Velinor International has established itself as a reliable bridge between producers and markets around the world.

From our beginnings as a regional trading enterprise, Velinor International has grown into a respected global brand recognized for its consistency, integrity, and customer-focused approach. Through strategic partnerships with manufacturers, distributors, and logistics providers across Europe, Asia, Africa, and the Americas, we have developed a solid network that enables seamless international trade operations across multiple industries — from raw materials and industrial goods to high-end consumer products.

Our philosophy is simple: connect global markets efficiently and ethically while delivering measurable value. With expertise in export management, supply chain optimization, and international compliance, Velinor International ensures that every shipment meets the highest standards of quality and reliability.

Innovation and collaboration lie at the heart of our success. We continuously invest in technology-driven solutions to enhance transparency, traceability, and sustainability throughout our operations. By aligning global best practices with local insights, we deliver customized trade solutions that help our clients expand their reach and strengthen their competitiveness in global markets.

Velinor International's achievements stem from the dedication of our highly skilled team — experts who combine deep market knowledge with a passion for international business. Our commitment to excellence has earned us recognition across the export industry and a growing base of satisfied partners worldwide.

Environmental and social responsibility are integral to our business vision. Velinor International actively promotes sustainable sourcing, reduces environmental impact through efficient logistics planning, and supports communities by encouraging responsible trade practices. We believe that success in business must go hand in hand with respect for people and the planet.

At Velinor International, quality, integrity, and innovation are not just values — they are the foundation of everything we do. Our goal is to continually exceed the expectations of our partners and customers, fostering long-term relationships built on trust, transparency, and shared growth.

DATA SHEETS

Data Sheet

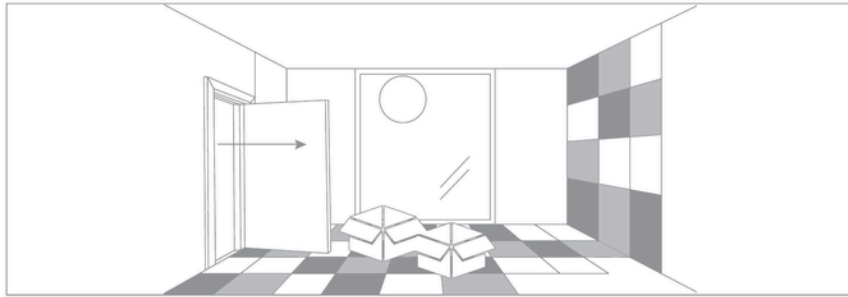

- The technical information written on the product package should be read.
 - The product type based on the applied space should be carefully chosen.
 - The shade, model and caliber options on the cartons of the products should be the same.
- One of the tips for the better performance of the products is to pay attention to the correct installation instructions and the following steps.

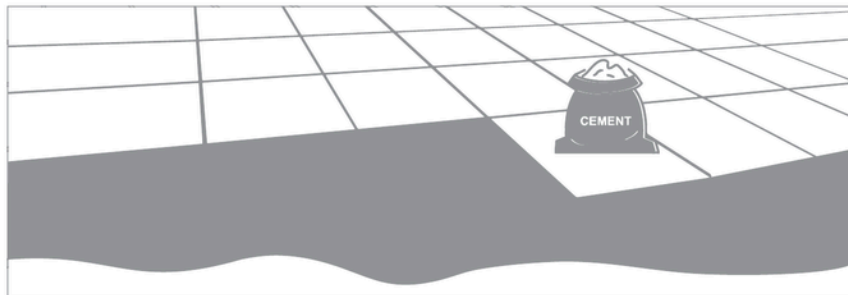

Support

- The installation place should be smooth, even and sturdy hard.
- The installation place must be free of dust or dirt.
- Avoid installing the product in very hot or cold temperatures.
- The above conditions are the same for the floor and wall products.

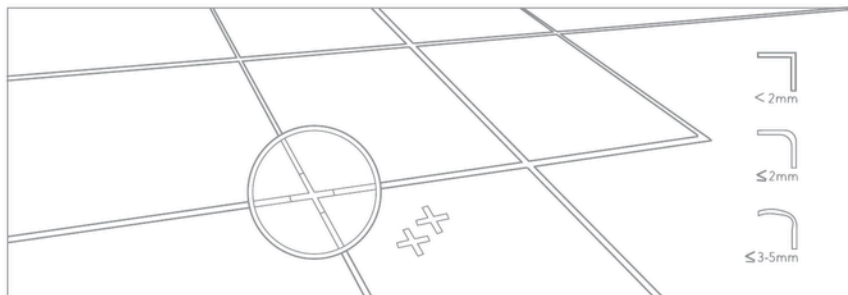

Material

- It is recommended that to use the product sections by random selection in the target space.
- If the product has any various different shade or graphics, the random selection and installation is necessary.

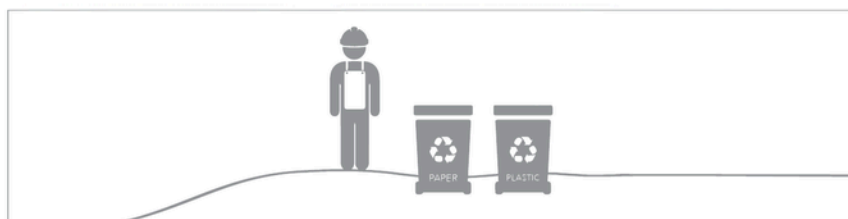

- The use of filler mortars, tile adhesives and other adhesives should be proportional to the type of purchased product and these should be usable in the interior-exterior spaces, floor-wall surfaces and flat and non-planar surfaces.
- remark: The manufacturer instructions should be read necessarily when installing.

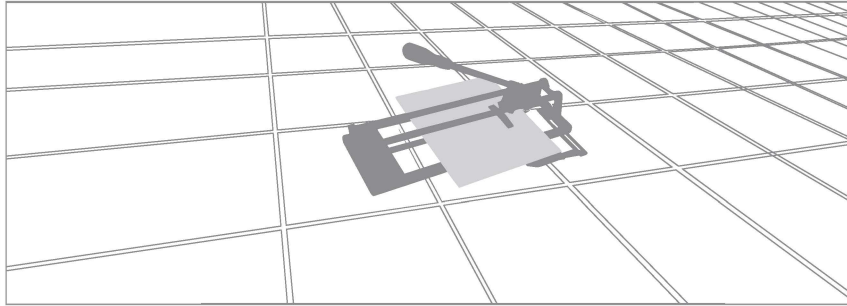

Data Sheet

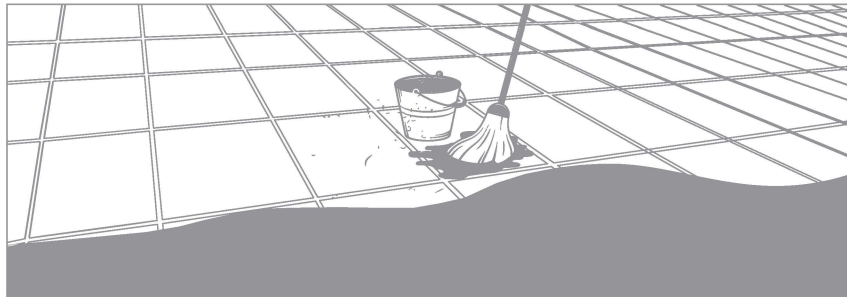

- In order to properly install the products, the cross or parallel linings should be used. The cross parallel linings are used for more beautiful installation, where the important technical issues (concerns), the alignment of the products and the prevention of any deformation on wall and floor surfaces should be considered.
- The minimal use of the offered cross linings will help you to make your ceramic installation more comfortable, fascinating and elegant. Therefore, in order to prevent any fault, the following items should be considered:
 - Rectified products: at least 2 mm
 - Non-rectified products: at least 2 mm
 - Rastic products: 3 - 5 mm
- Remark: Regardless of the values written, the compliance with the installation rules of each region (country) is necessary, when the products are installed.

- Any generated wastage (carton and plastic) should be segregated in appropriate places for recycling.

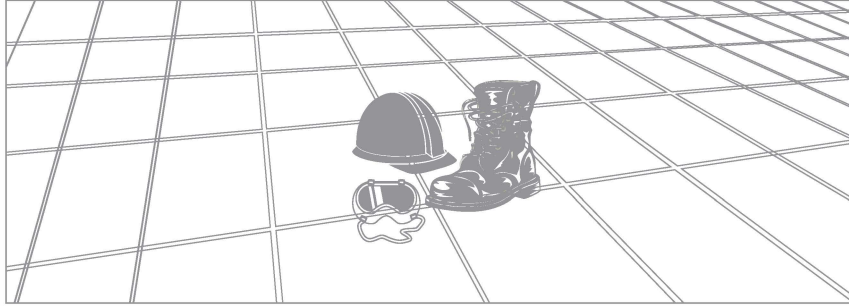

- For cutting the ceramic pieces, you can use a hand cutter.
- For cutting the harder pieces, you can use the electrical cutter with higher than 1 horsepower with water to cool the machine.

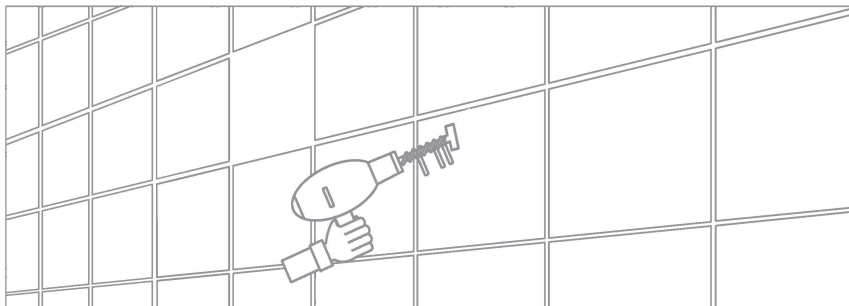

- after installation, the maintenance of the products is imperative.
- in order to clean the residuals of soil, cement, bonding powder and cross linings, immediately use the neutral buffer and detergent after installation.
- the use of the neutral detergents for daily cleaning and washing is recommended.
- Avoid the abrasive detergents to clean the decorative sections of the products. the use of the neutral detergents and the certitude for cleaning the third baked products with the different lead, gold, silver coatings etc. are necessary.

Data Sheet

- When carrying the products and dislocating the pieces, it is recommended to choose the correct method.
- the safety shoes, gloves, goggles and earplugs must be used, when cutting the products.

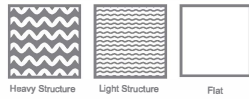

- Diamond-sized screw drill should be used to perforate the product.

GREEN PAGE

Products commercialized by Velinor International meet all the norms required by global manufacturing standards. These legal requirements have encouraged us even further when setting our own international goals, leading to a minimization of any environmental impacts that may arise from our manufacturing process.

- Recycled material used in production
- Emissions maintained under the maximum authorized level for pollutant gases
- Cardboard and wood packaging managed by SIG from ECOEMBES
- Waste management handled through an authorized company
- Recycling of industrial sewage water

CUTTING-EDGE TECHNOLOGY

Each raw material used, each productive process, and each technology within the complex operations of Velinor International are carefully studied to reduce environmental impact through saving, recycling, and filtering — with the goal of transforming waste into resources and optimizing energy use. Velinor International is at the forefront of adopting ecologically sustainable practices, demonstrated by the most rigorous quality controls performed on a daily basis.

	Reused Non-Fired Material		Energy Saving
	Recycling of Fired Material		Packing From 100% Recycled Materials
	Water Recycling From The Production Process		Ceramic Products Sustain Ability
	Low Gas Emissions to Atmosphere		FAO Pallets

THE ENVIRONMENTAL CERTIFICATIONS

Velinor International has obtained the most prestigious international environmental certifications. Agencies and control bodies have officially recognized the company's commitment to safeguarding the planet's natural resources. These certifications are proof of the high standards maintained by Velinor International — a company that leads in sustainable development. They clearly demonstrate how it is possible to combine quality, industrial innovation, and design with a strong commitment to environmental protection.

Data Sheet

INHABIT THE PRESENT LIVE THE FUTURE

Velinor International create tile and ceramic collection to live the present and the future, surrounded by beauty, protected by the quality of an exclusive design of living in total freedom.

The same beauty and marvelous harmony the we dream for the world around us.

For this, Velinor International create protects, by reducing to its minimum the environmental impact coming from its activity through the constant research of the total eco-sustainability in the working environment, on the materials used and in the productive processes, as the obtained environmental certificates demonstrate.

We want to contribute for a better world only what is really eco-sustainable can be considered as development with future vision.

SUSTAINABLE DEVELOPMENT	Commitments
Customer Services and Relationships with other Stakeholders.	Satisfaction of customers and other interested parties, seeking the internationalization of their brands and products in the various markets.
Continuous Improvement	Innovation and product development anticipating the expectations of its customers and ensuring the sustainability of the products throughout their life cycle.
Efficiency	Implementation of a culture of operational excellence that maximizes the efficiency of processes.
Social Goals	Involvement and motivation of its employees, since they are an important asset for the success of the company.
Environmental Protection	Protection of the environment, including pollution prevention, contributing to the minimization of environmental impacts and opting wherever possible and economically viable by the best available technologies.
Health, Safety and Well-Being	Prevention and minimization of risk to the health and safety of employees in order to contribute to their integrity and quality of life.
Relationships with Society	Compliance with legal and other requirements that the organization subscribes to its products and services activities.
